AN ORDINANCE providing
for borrowing money and issu-
ing bonds of the Village of
Tinley Park, Cook County,
Illinois, to the amount of \$55-
000 for the purpose of paying

to be voted upon; and

Whereas, the President and
Board of Trustees of said Village

Tinley Park Wins Amvet Tournament

The Beecher Amvets sponsored invitational tournament was held July 4 and 5. Frankfort met Beecher in the first game, and

nosed out Beecher 4-3. Tinley Park played Peotone in the second game on July 4th, and Roger Hug had the Peotone team handuffed, and collected 15 strikeouts while pitching a one hitter to let the Tinley Park Healy Ponies win the second game with a 5-0 score.

Tinley garnered all of their runs in the third inning as follows: catcher Buddy Schultz led off with a ground rule double that rolled under the fence in left field, Lucas then laid down a beautiful bunt and was safe while Peotone failed to get Schultz going to third. Lucas stole second on the 1st pitch to Teddy Siemsen. Schultz scored and Lucas went to third while Teddy was being thrown out by the 2nd baseman.

Miller doubled scoring Lucas. Tindall tripled scoring Miller. Hartwig singled scoring Tindall. Hartwig stole 2nd and advanced to third when the fourth ball to Hug got away from the catcher. Hug stole second base. Hartwig scored and Hug advanced to third while O'Neill was being thrown out by the 2nd baseman. Eddie Siemsen struck out to end the inning and each man had a turn at bat. Five runs on four hits and no errors. Miller, Teddy Siemsen and O'Neill also added a single apiece to fatten their batting averages, although these did not figure in the scoring.

Peotone's hopes rose when Koehn opened the 5th with a solid double. Hug struck the next batter out, and then forced the next two batters to pop up and ground out to the first baseman, O'Neill who handled both plays effortlessly.

Tinley played Frankfort for the trophy on July 5th. Zechlin,

pitching for Frankfort, struck out the first three batters to face him. After Hartwig struck out two, Schroeder reached first when the shortstop made an error. Hartwig struck out the next batter. Girls Softball Notes

by Ruth
The Frankfort Girls Softball team played the Tinley Park girls June 30 on the Frankfort diamond. Frankfort won by the margin of 17 to 7 and the game was umpired by Ralph Benck and Riley Flesher.

For Frankfort, Lois Steinbach started pitching but got off to a shaky start and the job was turned over to Arleen Flesher with Lois taking over second base. Carole Peterson did the catching.

For Tinley Park it was Carole Meyer on the mound and Judy Gray behind the plate. Tinley behind the bases heavily in the first inning thanks to fielding errors, a hit, and walks. Two of the runners were out on plays at the plate but four scored. Frankfort came back however, with six runs in their half of the first to take the lead never to relinquish it. Twelve girls batted the first inning and Inez Reiter, Irene Rorick, Jean Lentz and Loraine Redman helped their batting averages with nice hits.

The second inning netted one run for Tinley Park. Carole Meyer got to first on an error and circled the bases on infield outs. The visitors were then held scoreless until the sixth, when the same gal, Carole Meyer, found the range and hit one

Trinity Beats Chicago Heights

The Trinty Walther League of Tinley Park played its second home game of the season which turned out to be a thrill-packed, see-saw battle from the beginning to end. Both teams were fairly evenly matched but Tinley Park won over Chicago Heights, 9-7. This victory makes Tinley Park tie for first place with Matteson. Tinley Park now has a 4-0 record.

Tinley scored runs only in the first, third, fourth, and sixth innings but they compiled enough runs in these four innings to defeat Chicago Heights who was able to score in only three innings.

Chicago Heights bunched up six hits in the first two innings for as many runs while Tinley Park was getting off to a slow four-run first inning start. The Trinity team tied the score in the 3rd inning, but Chicago Heights came back in the top of the fourth for another run to make the score 7-6. Tinley Park broke loose for two runs on three hits in the last of the fourth and was never headed after that. An insurance run in the 6th ended the scoring with Tinley Park on top 9-7.

Tinley's 4-run spurge in the first inning didn't enough came on only 2 hits, these being supplied by the two Fremder boys. With one out, Bob Fremder singled for Tinley's first hit. The Chicago Heights pitcher then went on to prove that he didn't have it that day by walking the next four batters in succession. The last two walks which this pitcher gave up forced home 2 runs. Jim Fremder's timely hit brought Les Becue and Lawrence Rauch scampering across the plate.

Big guns for the Tinley team in this contest were Don Schroeder and Jim Fremder. They each got 3 hits apiece, scored 1 run, and helped score a teammate. Most of the runs scored during those first 2 innings came as the result of errors on both sides. Trinity's next ball game will be played against Richton Park, Sunday, July 11 there. Game time: 2:30.

Tinley Park Has Girls' Ball Team

The Tinley Park Teen Club has organized a girls' softball team under the management of Joe McCarthy. Helping Joe as coaches, are Milner Balzhiser, Bill Bingham, Al Brandau, and Jack Tomlinson.

So far the team includes Alice Albright, Dianne Albright, Sue Balzhiser, Nancy Barrowcliff, Gloria Bettenhausen, Bonnie Brauer, Lenine Couch, Judy Gray, Beverly Lauffer, Carol Meyer, Carolyn Nielsen, LouAnne Rockrohr, and Pat Smith. The official roster is due July 31 and by that time Joe hopes to have 20 girls on the team, so if any other girls are interested, please contact Joe McCarthy at KE 2-2619.

The most important business on hand is that of obtaining uniforms for the team. This is being taken care of by the coaches and Joe who are contacting the merchants of Tinley Park to sponsor a girl. In return, each sponsoring merchant will have his name put on a girl's uniform.

Even though the girls have played two games and have lost both, they are rapidly improving with more practice and experience behind them. They have potential fielding ability and their hitting is coming along quite well.

Continental Touch

A dish that would make any special occasion even more special is a delicate cheese fondue.

Famed chef Frank Romera, of New York's Hotel St. Moritz has joined with world famous Stock Vermont in creating a new recipe for Cheese Fondue which makes use of this exceptionally dry Italian vermouth. The dry vermouth not only provides its own distinctive taste quality but is a good idea for the calorie conscious, too.

CHEESE FONDUE ST. MORITZ
2 lbs natural swiss cheese, finely diced
1 teaspoon Worcestershire Sauce
8 ounces Stock Dry Vermouth

Place ingredients in omelette pan over medium heat. When fondue begins to simmer, stir briskly with wire whisk until thoroughly melted and fondue starts to cook (about 10 minutes). Remove from heat and serve on toast slices of French bread in individual dishes. Garnish with paprika. Serves 6.

MOKENA

Mokena 3521

Mrs. Edward Akers spent last week in Cleveland, O. on a short vacation.

David McMillan flew to Minneapolis, Minn., Thursday night to attend the funeral of his brother-in-law who was drowned last Sunday while on a vacation.

Mrs. Lillie Cooper of River Forest, formerly of Mokena and her grand daughter Jean Bassett of Ontario, Wis., left Chicago by train June 28 to visit with Jean's brother and wife, AT-3 and Mrs. Robert Bassett.

About 80 persons, members of the Sunday Evening club and choir of St. John's church made the trip to Bass Lake Monday and accepted the generous hospitality of Mr. and Mrs. Roy Kropp at their summer home there. A pot luck dinner was enjoyed on the lawn overlooking the lake. Reports are that the lake was grand for swimming and rowing, and the lake is the lowest it has been since 1940. Lack of rain is presumed to be the reason.

The birthdays of Mrs. Christ Sippel and Mrs. Richard Sippel were observed at a family gathering in the former's home last evening. In addition to the families of the above were the W. A. Muehler family. The usual birthday cake, candles and ice cream was enjoyed.

Mrs. Jessie Koeller, who is spending the summer in her Mokena home, made a trip to her farm in McLean county last week, she is expected to return this week end.

Kay and Sandra Swindford are spending two weeks vacation with their grandparents, Mr. and Mrs. G. A. Swindford at Charleston, Ill. They will return Saturday with their uncle and aunt. Mr. and Mrs. Reese Swindford and family who will remain for a visit.

The tree that was blown down on the north corner of the lawn at the home of Mrs. Kate Horras during the storm last week struck the porch roof and knocked a hole in it. It also broke two basement windows and a win-

dow in a bedroom. Mrs. Horras and her son-in-law and daughter, Mr. and Mrs. Derrig and family have recently moved back from Chicago and are living in the Midland ave home.

581 Persons Take Mobile Unit Test

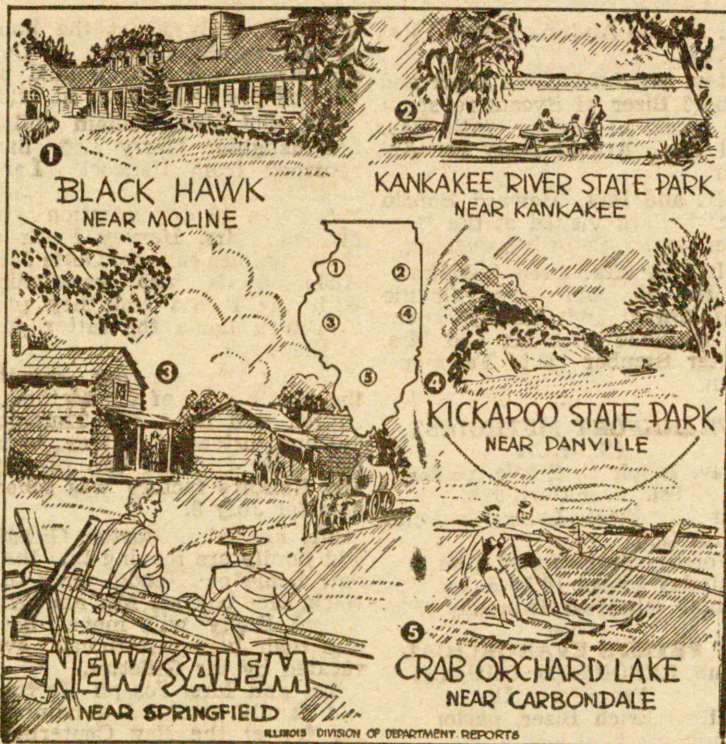

A total of 581 persons received free chest X-rays in the Tinley Park X-ray for health survey, June 18, when the mobile unit was stationed at the National Tea store, 17010 S. Oak Park ave, the Tuberculosis institute announced this week. Results of the findings are being mailed to the homes of the individuals, 10 days to two weeks after the X-rays are taken.

Although the primary purpose of the survey was to locate tuberculosis among apparently healthy persons, the X-ray films are also examined by chest physicians for other chest conditions such as lung cancer and heart disorders. If suspicious signs of TB show up, the individual will receive a letter requesting that he report for a larger free chest X-ray. In the case of other chest conditions, a letter will be sent urging that a private physician be contacted immediately for further examination.

The survey was brought to this area by the Tuberculosis institute (the Christmas seal organization) and the Suburban Cook County Tuberculosis Sanitarium district in cooperation with the Tinley Park Lions club which sponsored the project.

Flavin A. Rosenstone, director of the Department of Public Works and Buildings, reported 901 traffic deaths during May. This brought the 1954 total to 791, three percent below the 812 deaths for the same five months in 1953. The May figure was nine percent above the 185 fatalities during May, 1953.

The work includes modernization of 13 more miles of U.S. Rt. 66 in Livingston, McLean and Sangamon counties under two contracts totaling \$1,630,625. These awards brought to 58 miles the extent of the trans-state highway placed under contract for conversion into a four-lane divided expressway since the first of the year.

CHRISTIAN SCIENCE CHURCHES

That true progress depends on effective prayer, on man's selfless desire to understand and apply the spiritual truths concerning God and man, will be brought out at Christian Science services Sunday.

Readings from the King James version of the Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy will comprise the lesson sermon entitled "Sacrament." Scriptural selections in-

clude the account of Jesus' meeting with his disciples on the shores of Galilee after his resurrection, as told in John's Gospel.

From Science and Health will be read the following passage (1:6): "Prayer, watching, and working, combined with self-improvement, are God's gracious means for accomplishing whatever has been successfully done for the Christianization and health of mankind."

CARD OF THANKS

I wish to express my thanks and appreciation to all friends and relatives for their lovely cards, flowers and gifts sent to me while I was in the hospital. I wish, also to express my gratitude to all friends and relatives who donated or offered blood repletions.

MRS. JOSEPH PELOQUIN

Mrs. Charles Henning has kindly agreed to act as correspondent for this column for the next two or three weeks while Mrs. Edward Mrosek is away.

Mrs. Mrosek plans to fly to Seattle, Wash. to visit her parents, Mr. and Mrs. Orlando Johnson and family. All news should be called to Mrs. Henning at Mokena 3214 before 11:30 a.m. on Monday.

The Maue school board held a regular meeting, which was also attended by Mrs. Helen Lemke principal, at the Edward Mrosek

home, Wednesday evening.

After the usual business session, educational needs of the school were discussed with Mrs. Lemke. Budgets for the year were set up and decisions regarding the painting and repair of the school were made.

Following the business meeting, board members and families enjoyed a social hour, during which refreshments were served.

"Oh, you will be all right," comforted the friend. "One of my neighbors told me that when you get used to it, it isn't any different than riding on a manure spreader."

Iona Lou Rush, little red head granddaughter of Mr. and Mrs.

Charles Albert, is under observation at the Illinois Research hospital where it is expected she will undergo a very delicate and serious operation.

The Alpine Indians, Pony League, still does not have a sponsor. In some such cases residents of the community have pitched in to help. It sounds like a good idea and it shouldn't take much to keep these boys in balls and bats.

Tips on Touring

By Carol Lane
Women's Travel Authority

Are you angling to join the male members of the "angling" set? Then pack your fishing rod, tackle and other gear into the family bus and take off—because the "fishing" is fine. And you'll find plenty of company because the number of feminine fishermen is increasing yearly.

Finding the right spot to fish isn't too hard, particularly in June, one of the best months for casting your bait or fly. Fish bite best when the temperature of the water is relatively cool as it is now, in early summer.

In fact, at this time of the year, fishing is good in practically all sections of the country. In the midwest, trout, muskellunge and walleye are plentiful. Later on, bass and pike will provide excellent fishing. In the southern states, bass, bream, crappie and catfish abound. Game fish are also rising in eastern lakes and rivers and in far western mountain streams, following spring's melting of the ice.

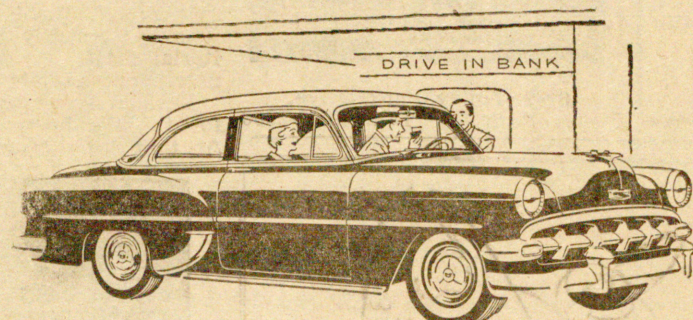

Before you try out that new spinning reel be sure to get a fishing license to avoid an argument with the game warden. Also, keep in mind that various states set their own strict limits on the size of your catch.

Abide by the rules, and you're sure to have fun with your rod and reel in the nation's rivers, lakes, streams and "fishin' holes."

BABSON SAYS—

Copyright, 1954, Publishers
Financial Bureau, Inc.

Readers wonder why I am optimistic as to the balance of the year. There are many reasons which I gave in my last week's Outlook. I now wish to emphasize the probable 1954 expenditures for new equipment and labor saving machinery.

Although there is some reduction in the total income of wage workers, it is mostly from reduction of hours and loss of overtime. This results in more leisure time and more money being spent on Do It Yourself improvements. This will stimulate retail sales.

There is no letup in the demand for office workers. They are becoming harder to get even at higher wages. Probably the demand from the Government and from the various engineering sub-contractors is causing most of this; but the desire of present women workers to get married and have babies is a great factor.

Expenditures for labor saving devices are increasing, even though wages have stopped advancing. Companies are also enlarging their plants to make working conditions more pleasant and efficient. The attitude of employers is changing. It's not now a question of paying more wages; but of making the work lighter and the working environment more pleasant. I forecast continued large capital expenditures.

The gradual recognition of Cybernetics by manufacturers will cause a further scarcity of bookkeepers, stenographers, and other white collar help. High school graduates have not heretofore liked to go into factory work because of the necessity of wearing old clothes and being classed as "common labor." But under the Cybernetic system, girls can operate both big and small machines by sitting at a mahogany desk in a silk dress, occasionally pushing a control button. This is easier and more interesting work than hitting a typewriter all day; and has a higher social rating.

Expenditures for these and other so called "benefits" appear unnecessary, if not foolish, to the old time employer; but we may well have to come to these and other attractions. Some concerns now have music playing all day for their employees, while many have television during the lunch hour. These "extras" are not necessarily supplied by socially minded employers; but rather by hard-boiled, old fashioned employers who must "loosen up" to hold their workers.

All these "extras" help gen-

eral business. Retail sales have fallen off; but I forecast that labor saving devices and these new expenditures for making working conditions more attractive will increase from now on. Profits in some lines of business will decline; but in other lines profits will increase. The entire picture is changing. People continue to have money to spend; but they are not spending it so freely for the same old things. Live manufacturers and progressive merchants should awake to this. Watch the coming change in advertising copy.

No employer can long spend more than he takes in, whether it is in wages or fringes. Cybernetics appeal to the new fair-haired girls who get the jobs to control a factory by push buttons but on a few such people will be needed in some factories and stores. It is okay for wage workers to be well dressed; but they must work hard just the same. Business cannot coast much longer. Sooner or later the present "easy days" will be over. Machines can compensate for shorter hours and more pay; but those who tend these machines must give 100 percent in attention and worry in order to hold their new jobs.

The rise in the price of equipment stocks and labor saving device stocks should be a warning to wage workers. These companies are now getting huge orders; but the rising price of their stocks and bonds is a sure sign that many factories and offices are now approaching great changes. The new machines may not be delivered for a year or two years; but they are coming. This means that those who now have jobs, whether in offices or factories, had better hold onto them by doing good work. Don't be misled into a temporary "push job" at higher wages. You will regret it.

Water Study For Chicago, Suburbs

CNS—A study of Cook county's water needs over the next thirty years was set in motion Friday by Mayor Martin H. Kennelly and other Chicago officials.

They will ask the city council to approve a contract for \$40,000 for a study of physical improvements to be made in the three ten year periods. The study is expected to be completed by the end of 1954. In a statement on the study, Mayor Kennelly said: "The rapid growth of the Chicago metropolitan area and the increase in the amount of water used for domestic and industrial purposes, indicates that the city should study a long range program for supplying water not only to the citizens and industrial users of Chicago, but to those of the entire metropolitan area. An intelligent engineering study of all the factors including probable growth and economic factors and possibility of future legislation must be made in order to determine the best course to follow."

He asked that the consulting engineers work with the Suburban Water Council, suburban officials and all other government officials interested in the problem.

Chicago's water plant now pumps an annual daily average of 1,006 billion gallons to the city and 51 suburbs, serving some 4,270,000 persons as well as industrial users. That flow has reached a daily peak of 1,476 billion gallons, Jardine said. The suburbs of Elmhurst, Northlake and Homewood, Jardine said, have applied for Chicago water and other suburbs will follow as they expand. Any town or village within the 314 square miles served by the Sanitary District is eligible for Chicago water.

Chicago Seisch Recalls Old Hoax

The seiche (high lake wave) which caused several tragedies in Chicago recently, recalls an interesting experience in the life of a man now working in Mokena.

Victor F. Hayden of Chicago, who has recently joined the editorial staff of the Semmler newspapers, relates the incident: Back in 1908 he was working for the Sandusky (O) Register. At that time it was customary

for a great many newspapers to concoct some wild improbable yarn and run it April 1st as an April Fool story.

He cooked up a story about a gigantic tidal wave sweeping Lake Erie, flooding Sandusky and leaving in its receding wake vast quantities of fish.

It was reprinted in a number of newspapers. One paper did not observe the last paragraph which told the readers the story was false. They ran it as news. By one of those ironies that make editors turn gray they had on the same page a story of their own, poking fun at other newspapers that "bit" on April Fool stories.

Twenty-five years later the story was resurrected and run in the Shield, published in Mansfield O. Mr. Hayden's birthplace, where he got his first taste of newspaper work. Sort of "hometown boy makes good" motif.

Five years after that it appeared in a history of northern Ohio. The story was supposed to be impossible because tidal waves occur only on oceans. However a teacher in the Sandusky high school asserted that it could happen. His explanation was too scientific for the mind of a mere newspaperman. However the Chicago seich has demonstrated that when a fellow starts out to tell a whopping lie he sometimes accidentally tells the truth.

Washington Week

By Noah M. Mason

The Scarest Thing in Washington

After 18 years in Congress the writer has come to the conclusion that the scarest thing in Washington today, especially in the Congress, is courage, backbone, sometimes called intestinal fortitude or "guts." We have the brains; we know what we should do; but we lack the courage to do it. Too many of us are influenced by party rather than by principle; we follow convenience rather than conviction; we are guided by partisanship rather than by patriotism; we are the servants of pressure groups rather than the servants of "We, the People." We need more men and fewer mice in Washington.

Auto Owners are Being Gyped

The automobile owners of America are paying more than their fair share of taxes. In 1953 the Federal government collected on gasoline, lubricating oil, and tires and tubes \$1,144,000,000 in excise taxes. On automobiles, trucks, buses, trailers, and automobile parts and accessories the Federal government collected another \$1 billion in excise taxes. In 1953 the Federal government gave back to the states in grants-in-aid for roads \$515,414,540.

This means the Federal government kept \$3.00 out of every \$4.00 collected in special taxes from auto owners, spent the \$3.00 for general government needs, and returned only \$1.00 to the states to be used upon roads for the benefit of the auto owners of America.
